

KALDEWEI

We strive to question, rethink and continuously develop everything. We set this standard both for ourselves and equally for our products. As a result, the focus of our activities is not only on individual products but on groundbreaking bathroom solutions. From design to completed project, we are a worldwide partner to our clients for all their design wishes – delivering objects of consummate beauty for the bathroom which are distinguished by their timeless design, daring individuality, and superb quality. This has given rise to true style icons – made from proven KALDEWEI steel enamel and created for unique bathrooms.

In the following pages we present you not only with our latest bathtub and shower surface models, but KALDEWEI also introduces you to an entirely new product segment. We have commissioned internationally renowned designers to develop washstands made of high-quality KALDEWEI steel enamel. These perfectly complement our existing programme. Furthermore, they produce an overall composition in the bathroom that is entirely harmonious thanks to the use of a single design vocabulary and material.

I hope that you will enjoy discovering our many exciting innovations, and I wish you just as much pleasure with our new brand image that once again underlines our high standards of quality. Meanwhile, we will be getting back to work again so that we can continue presenting you with new products and well-thought-out developments.

A handwritten signature in black ink, reading 'Franz Kaldewei'. The signature is fluid and cursive, with the first name 'Franz' and last name 'Kaldewei' clearly distinguishable.

PERFECTION CANNOT BE IMPROVED. BUT IT CAN BE EXTENDED.

The KALDEWEI steel enamel ensures that our bathtubs and shower surfaces, and now our new washbasins too, are made to last. But KALDEWEI steel enamel recommends itself not only for its material properties; its aesthetic qualities deliver equally strong arguments. Designed to let you enjoy the advantages of bathroom

furniture made completely of the same material, the new washbasins now complement our bathtubs and shower surfaces in the most optimal way. Experience the beautiful feeling when individual perfect objects combine into a perfect whole: a bathroom in one style, one quality and one class.

MEISTERSTÜCK CONODUO

OUR STRENGTH: KALDEWEI STEEL ENAMEL.

A UNIQUE MATERIAL WITH A 30 YEAR GUARANTEE.

The perfect material for perfect design has a name: KALDEWEI steel enamel. Steel and glass – two entirely authentic and natural materials, used for centuries, and each with its own inherent material properties.

Steel signifies strength, toughness, robustness and optimum ductility. Glass is highly resistant to chemical or thermal stress and has an excellent appearance. KALDEWEI steel enamel combines robust steel and

tough glass to form an inseparable bond harnessing the strengths of each material in perfect symbiosis. As a pioneer consistently pushing the boundaries to make the good even better, KALDEWEI has been steadily developing, refining and optimising the special formula and manufacturing processes of KALDEWEI steel enamel for almost a century now. KALDEWEI steel enamel guarantees lasting quality that remains visible, tangible and treasured day after day.

DIMENSIONALLY STABLE

Temperature fluctuations will not affect KALDEWEI steel enamel, thereby minimising the risk of cracked joints or damage from moisture penetration.

SCRATCH AND IMPACT RESISTANT

KALDEWEI steel enamel is much harder than acrylic and highly resistant to mechanical stress.

CHEMICAL RESISTANT

Perfume, bath additives or common household detergents will not harm the surface.

HEAT RESISTANT

Burning and smouldering objects do not leave marks on the surface.

UV RESISTANT

Our KALDEWEI steel enamel retains its original colour without fading or yellowing.

EASY TO CLEAN AND HYGIENIC

The glass-hard surface is hygienic and easy to clean.

100 % SUSTAINABLE

The natural materials we use in our environmentally compatible manufacturing process can be fully recycled.

THE WASHBASINS

MADE FOR HIGH STANDARDS – AND FOR ETERNITY.

◆◆◆ MIENA – AVANTGARDE

◆◆◆ CENTRO – AVANTGARDE

◆◆◆ PURO – AMBIENTE

MIENA

The round bowls of the MIENA line appear delicate, almost fragile. The contours run in a single gentle and harmonious curve towards the waste outlet. The resulting reduced footprint gives the bowls an even more weightless look. You almost get the sense that they are floating on the given undercounter.

MODEL	MODEL NO.	Ø
MIENA Bowl	3180	45
	3181	38

MIENA

The angular MIENA bowls are just as delicate but with a far more masculine look. Comparatively small radii, the only partially rounded contours and the square waste cover accentuate this effect – and extend the spectrum of the bowl family in the most elegant way.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)

CENTRO DUO OVAL**

DESIGN

Anke Salomon. The minimalism and simple elegance of the CENTRO bathtub family have been transferred here to the washbasins. Taking the circle as the basic shape, a very special geometry was produced – with soft radii and flowing contours. Apart from the round enamelled waste cover and the invisible overflow, the generous

dimensions of the washbasin surround are particularly striking. These lend the washbasin a distinctive character that stands out both in modern bathroom settings and traditional interiors – irrespective of which fittings you choose.

CONODUO

DESIGN

The family relationship with the CONO bathtubs and shower surfaces cannot be overlooked: Made of superb KALDEWEI steel enamel, the aesthetic quality and user-friendliness of these washbasins combine to produce the perfect symbiosis of clarity and serenity. The square, enamelled outflow accentuates the underlying geometry

of this sublime washbasin. In addition to its exceptional design, it captivates with a special technical feature: the overflow is invisibly integrated into the run-off support. There is no overflow hole to detract from the design's clean lines. The CONO washbasin thus exudes perfect elegance and harmony.

SCONA

SILENIO

DESIGN

Anke Salomon. The sensually modern design of the SILENIO series of washbasins distinguishes itself through its exciting tensions: The soft, organic interior shape culminates in a narrow, precise washbasin lip – with a straight-lined, geometrical external shape. This, combined with the unadorned surround, produces a

restrained yet extraordinary washbasin. The SILENIO product series offers the washbasin to go with the SILENIO Ambiente bathtub. Together with the SCONA shower surface, they form a harmonious bathroom, fitted out entirely with KALDEWEI steel enamel.

FLAT AND ENAMELLED

THE DESIGN SOLUTION FOR KALDEWEI FLOOR-LEVEL SHOWER SURFACES.

The demand for floor-level showers in new buildings and renovations is high. Low floor screed thickness can often be a problem. That is why KALDEWEI has developed a new generation of patented waste fittings – the innovative KA 90. Depending on the required

drainage capacity and the thickness of the floor screed, you can choose from four models. Combined with the flat-fitting, enamelled shower surfaces, this is a good solution for floor-level installation.

The enamelled waste cover for KA 90

The new, enamelled waste cover enhances the KALDEWEI shower surface as an absolute design highlight. Made of the same unique material and style of KALDEWEI steel enamel, the cover integrates fully into the design of the shower surface for an aesthetically compelling visual statement. Needless to say, the

enamelled waste cover is also available in the KALDEWEI colours and for the KA 90 fits all KALDEWEI shower surfaces in the CAYONOPLAN, SCONA, SUPERPLAN, SUPERPLAN XXL, DUSCHPLAN, DUSCHPLAN XXL, ARRONDO, CORNEZZA, FONTANA, ZIRKON ranges.

KA 90
with enamelled waste cover

CAYONOPLAN (Model No. 2254) in alpine white

DESIGN

The new way of entering the world of floor-level shower surfaces is called CAYONOPLAN. Thanks to 19 different dimensions, its waste outlet at the side and the ultra-flat tray support for the easiest possible assembly, the CAYONOPLAN is the ideal solution. With a rim height of 32 mm and/or 40 mm for formats with side lengths

of over 120 cm, it can be perfectly installed on top of tiles, although floor-level installation is also possible. As the perfect match for the CAYONO bathtub and the PURO washbasin, the CAYONOPLAN rounds off bathroom design.

MEISTERSTÜCKE

PURE RELAXATION - IN A PURE DESIGN.

Ⓜ MEISTERSTÜCK CLASSIC DUO OVAL

Ⓜ MEISTERSTÜCK CONODUO

Ⓜ MEISTERSTÜCK INCAVA

“THE WORLD IS ABOUT PEOPLE, NOT OBJECTS.”

Design that isn't for just anybody can't be produced by just anybody either. That is why we have asked the illustrious designer, Arik Levy, to design his first bathroom collection for KALDEWEI.

Arik Levy's work is famed for its emotional power. It not only makes people's lives easier, but also enriches them. Because it bestows happiness, pleasure and wellbeing on them. That is how Arik Levy interprets excellent design – and that is exactly what he has achieved with his MEISTERSTÜCK EMERSON. The sea was his inspiration for this design. The idea is that his tub should make the

ocean a visual experience, as if one were part of it. As if one were looking at the sea not at a distance, from the shoreline, but actually swimming in it. Like a surfer waiting for the next wave.

The interior shape and external trim combine to produce a wave; the extraordinary edge curves in on itself, lending the design a touch of undulance. Everything merges together to create an impressive bathroom sculpture with lines that seem to flow infinitely. Like the sea: without symmetry but full of harmony.

DESIGN

Arik Levy. The MEISTERSTÜCK EMERSO washbasin is the counterpart to the bathtub of the same name. Although built inversely, its design is equally subtle and harmonious. The washbasin's flowing lines appear to undulate; the internal shape of the washbasin seems to dissolve the boundaries between solid and liquid. Even the flush-

fitting outflow is positioned in such a way that it reinforces the impression of a fluid shape. Whether freestanding or inset countertop, the MEISTERSTÜCK EMERSO is an enhancement to even the most luxurious bathroom.

MODEL	MODEL NO.	VERSION	LENGTH (cm)	WIDTH (cm)	RIM HEIGHT (cm)
MEISTERSTÜCK EMERSO	3020	Freestanding	52	42	90
EMERSO	3021	Built-In Washbasin	52	42	3,2
	3022	Built-In Washbasin	72	42	3,2

DESIGN

Arik Levy. Designed for a single bather, the MEISTERSTÜCK EMERSO bathtub is a luxury to be enjoyed entirely by oneself. Ergonomics and design are at one with each other in this freestanding bathtub. The new kind of fluid design with its undulating bathtub rim provides a natural

and comfortable place to rest one's head. The tapering fully-enamelled outer shape underlines the bathtub's sculptural nature, giving it the look of a modern work of art.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)
MEISTERSTÜCK EMERSO	1100	180	80	41

“INSPIRED BY THE BEST DESIGNER IN THE WORLD – NATURE.”

Anke Salomon's design vocabulary stands apart because of its unmistakable aesthetic: clear-cut, pure and full of beauty – just like nature. Anke Salomon remains faithful to her design philosophy in her collaboration with KALDEWEI. Three product lines have been created: the freestanding MEISTERSTÜCK INCAVA bathtub, a built-in version of the INCAVA, and the SILENIO Collection comprising a bathtub and washbasin. We met the illustrious designer and spoke to her about the new bathroom collection.

Ms. Salomon, you designed several products for KALDEWEI. What is special about the design?

Anke Salomon: “The three product lines share a common design vocabulary that is natural and soft. Starting from a clearly defined edge, the material flows gently downwards with no visible rims or corners, and with no geometric orientation. The individual models differ from each other, however, thanks to distinctive design features. With the freestanding MEISTERSTÜCK INCAVA bathtub, the material flows directly from the outer rim to the interior. The wall of the tub appears very narrow, so that the interior seems all the more spacious. Combined with the conical exterior shape, the bathtub exudes an incredible lightness. The built-in INCAVA bathtub captivates with its

unusual corner radii. The bathtub's high, striking rim surrounds it like a picture frame, setting it apart from the architecture around it. The SILENIO bathtub, on the other hand, appears peaceful and integrative thanks to its very flat tub edge and exceptionally precise corner radii. The accompanying SILENIO washbasin picks up on the flowing, soft design of the product line, and its dimensions appear very lavish.”

What is the idea behind the design of the new KALDEWEI products? Was there something that inspired you?

Anke Salomon: “The design vocabulary is harmonious, sensual and unadulterated. The soft contours of the interior space flow as naturally as a cloth that, hanging freely, forms a harmonious, gentle hollow. This nature-oriented aesthetic combined with long-lasting, solid KALDEWEI steel enamel produces an extremely exciting arrangement of design and material.”

What design challenges did you face in working with KALDEWEI steel enamel?

Anke Salomon: “What is special about the material is the high aesthetic quality and, at the same time, its unique durability. Because of the longevity of steel enamel, the design cannot be governed by passing trends but must continue to give pleasure for many, many years. At the same time, the design must possess a new and strong character, as well as that certain something – a challenging task.”

What does collaboration with KALDEWEI mean for you?

Anke Salomon: “While working with KALDEWEI, I got to know a team there who, demonstrating a love of their product, a passion for their material, steel enamel, and a huge awareness of quality, are dedicated to creating bathroom products. Naturally, for me as a designer, that is a fantastic environment. I am very pleased to have the opportunity of working with this team on designing high-quality objects that will delight people for many years to come.”

DESIGN

Anke Salomon. The charm of the freestanding MEISTERSTÜCK INCAVA lies in the subtle tension between the soft lines of the interior and the sensual geometry of the exterior. The reduced rim and

conically-shaped trim give the bathtub a surprising lightness. The design is perfected by the centrally-placed, flush-fitting, enamelled waste cover and the newly devised enamelled overflow.

DESIGN

Sottsass Associati, Milan. The seamless shape of the MEISTERSTÜCK CONODUO combines freestanding design with excellent bathroom comfort to produce the perfect symbiosis of clarity and serenity. The precisely executed bathtub cladding, the flush-fitting, built-in out-flow, and the optimally positioned overflow knob are all made of superb KALDEWEI steel enamel, and accentuate the coherent look in the bathroom. Two identical back slopes and the centrally positioned outlet ensure a very special bathing experience – be it alone or à deux. For those who would like even more space in the bathtub, we now also offer a 180 x 80 cm version.

CLASSIC DUO OVAL

MEISTERSTÜCK 

DESIGN

Those who call their bathtub a “classic” can be fairly certain that they have found the optimum shape for timeless beauty. In fact, time has even matured our CLASSIC DUO OVAL so that its shape can now express its full potential. Seamlessly encased in KALDEWEI steel enamel

with an oval contour and conical external lines, it is the archetype of the freestanding bathtub. An absolute classic! And because it also wants to be a relaxed place for two people to bathe at the same time, this freestanding classic is available in two sizes.

CENTRO DUO

MEISTERSTÜCK 

DESIGN

KALDEWEI MEISTERSTÜCKE aim to make your bathroom into a unique place. And that's another reason why they can be placed anywhere in the bathroom. Be it freestanding, wall-mounted or in a corner – they can fulfil just about any wish. In keeping with this thinking, we offer special versions of our MEISTERSTÜCKE with two or three-sided trim. The exquisite look is retained: fully-enamelled and seamless. This means that even those models that are not freestanding still preserve their clean-cut, minimalist lines.

CENTRO DUO OVAL (Model No. 128) in alpine white

DESIGN

Sottsass Associati, Milan. Unpretentious and sophisticated elegance distinguish this range of bathtubs. The oval shape, the special depth of 47 cm, two identical backrests and central waste ensure that you can bath with a partner particularly conveniently and comfortably. An eye-catcher in any bathroom. The moulded panel, per-

fectly adapted to the shape of the bathtub, logically picks up on the design of this model and in so doing creates the option of experiencing design in the room with this freestanding bathtub. Also available with freestanding panelling (Model No. 127-7 and 128-7).

Also available as a whirlpool.

AVANTGARDE ◆◆◆

DISCREET OPULENCE AVANTGARDE COLLECTION

INCAVA
(Model No. 174) in alpine white

DESIGN

Anke Salomon. The built-in version for the highly discerning. The narrow, precise wall of the tub surrounds the organically soft interior shape like a picture frame. The height of the edge is generous, the corner radius significantly rounder than in other KALDEWEI bathtubs. This lends the INCAVA Avantgarde a strikingly sculptural look,

setting it apart from the rest of the bathroom architecture. In contrast, the flush-fitting waste cover and the newly devised overflow – both made of KALDEWEI steel enamel – are superbly integrated. They round out the sensation of profound serenity and harmony created by the interior of the bathtub.

DESIGN

Sottsass Associati, Milan. The MEGA DUO combines generosity with aesthetic individuality. It is as though these baths have been specifically created for bathing with a partner. Not only do the two identically shaped backrests and the central waste offer the highest levels of comfort for two people, but the wide armrests on both sides of the bath also provide extra luxury. The MEGA

DUO OVAL, designed by Phoenix Design, is available with moulded panel on request. It combines generous sizes with aesthetic uniqueness. The panel manufactured from one piece harmoniously suits the shape of the bath and allows it to be freestanding. Also available with free-standing panelling (Model No. 184-7).

Also available as a whirlpool.

PURO

AMBIENTE ♦♦♦

ELEGANT PURISM AMBIENTE COLLECTION

PURO DUO (Model No. 664) in alpine white

DESIGN

KALDEWEI Design. One of the basic principles of modern architecture and interior design is reducing all elements to their core. The clean and unpretentious design of PURO also follows this approach. As a one-person bathtub it fulfils the desire for a high-quality yet affordable design. The PURO has a particularly generous length for extraordinary high levels of bathing luxury.

The purist design of the PURO DUO follows the approach of reduction in the same way and is the logical continuation of the successful PURO series. It fulfills the desire for high-quality and timeless design for bathing for two. The inside of the PURO DUO is especially long to offer exceptional bathing comfort.

Also available as a whirlpool.

AMBIENTE ♦♦♦

PURO SET WIDE

AMBIENTE ♦♦♦

ELEGANT PURISM AMBIENTE COLLECTION

PURO SET WIDE (Model No. 667) in alpine white

DESIGN

PURO SET WIDE combines bathing and showering in one tub in a completely new way. The centrally-positioned waste and overflow is not only an attractive design feature but allows for ample freedom of movement while showering. The reduced tub depth makes it easy to

get in and out and reduces water consumption while bathing. The rim of the tub is flat and wide all the way round so taps and accessories can be placed anywhere – entirely in keeping with your personal preferences and the available space.

UNIVERSAL GRIP TYPE A

CAYONO (Model No. 749) in alpine white

DESIGN

KALDEWEI Design. The CAYONO is deliberately designed in lines coordinated with the stylistic features of modern architecture. Straight lines, small radii and a consistent geometry signal clarity, harmony and stringency in an ever more complex and fast-paced world. By the same

token, CAYONO is designed specifically for everyday use. Steep sides ensure a generously dimensioned bathtub interior – even with smaller sizes. The flat bathtub bottom allows for comfortable showering.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (litres*)	WEIGHT (kg**)	GRIPS
CAYONO	747	150	70	41	89	42	–

KALDEWEI EXPERIENCE

COMFORT SELECT

KALDEWEI SPA / SKIN TOUCH

SKIN TOUCH. THE PROMISE OF BEAUTIFUL SKIN.

SKIN TOUCH offers luxurious bathing with nourishing care: ganz natürlich mit naturally revitalising the skin with the infusion of pure oxygen. For the revolutionary beauty effect SKIN TOUCH enriches the water with millions of micro sized air bubbles that are up to 100 times smaller than those in whirl baths. The bubbles

disperse evenly through the tub like a delicate bath milk, softly caressing the body and invigorating the skin cells for a luxurious deep treatment. The result is supple and rejuvenated skin that feels velvety-soft and smooth from head to toe – a spa effect that beautifies the skin with every bath.

As an optional extra, the exclusive SKIN TOUCH transforms KALDEWEI bathtubs into a veritable fountain of youth.

VIVO TURBO AND VIVO TURBO PLUS

In today's fast-moving world, a relaxing whirlpool bath is a moment of inner harmony. You can forget your worries and experience the pure pleasure of water with all your senses. The whirl intensity in the VIVO TURBO ranges from a gentle stimulation of the sensory hairs to a powerful, large-surface massage of the skin, subcutaneous tissue and muscles. The special feature of the VIVO TURBO is the addition of air, which can be integrated into the system while maintaining its outstanding hygienic standards. The VIVO TURBO PLUS individually adjustable whirl programmes round up this complete whirlpool experience.

VIVO VITA

One of the best counterbalances to the stress of everyday life is weightless floating in your whirl bath. In the VIVO VITA whirl system, a pleasant sparkling air stream flows through the water. Pre-warmed air rises from the base in tiny air bubbles. At the same time, numerous bubbles stimulate the nerve endings in the skin, which feels like a pleasant full-body massage. This soft massage has a relaxing and soothing effect on your mind. In addition, the cleaning effect of the tiny air bubbles is significantly higher than that of a conventional bath. Whirl intensity can be smoothly adjusted using the bath control panel, from the soft stroke effect to a lasting effect of stimulating vibration and shaking massage.

Side jet in **VIVO TURBO** and **VIVO TURBO PLUS**.

Floor jet with air in **VIVO VITA** and **VIVO VARIO ECO**.

Side jet with air mixture in **VIVO AQUA ECO**, **VIVO AQUA** and **VIVO VARIO ECO**.

With the **VIVO TURBO** equipment, the whirling intensity can be smoothly adjusted.

The **VIVO TURBO PLUS** comfort feature offers individual control of each jet in addition to the basic set of functions.

In the **VIVO VITA** the whirl operation and underwater light fitting can be controlled.

VIVO AQUA ECO AND VIVO AQUA

The VIVO AQUA ECO is a perfect introduction into the KALDEWEI whirl world. In this whirl system, water massage jets are targeted directly at your body through four or six nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. The intensity of the addition of air can be smoothly adjusted by the turn knob. In the VIVO AQUA whirl system, water massage jets are targeted directly at your body through six or eight nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. Massage effect can be smoothly increased to receive a soft vibratory massage with relaxing depth effect.

VIVO VARIO ECO AND VIVO VARIO PLUS

The VIVO VARIO ECO system ideally unites the benefits of air and water. An especially quiet blower whirls tiny air bubbles up from the floor jets for a caressing massage all over the body. At the same time, water streams from paired side jets to deeply massage the skin and muscles. The whirl intensity can be infinitely adjusted using the bath control panel. In VIVO VARIO PLUS, the combined effect of floor and side jets is taken a step further. While bubbles rising from the floor jets create a tingling feeling we call the KALDEWEI champagne effect, the rotating side jets provide skin and muscles with a pleasant massage. Additional jets integrated into the foot reflex zone and lumbar region ensure a relaxing, whole-body massage. All functions in the VIVO VARIO PLUS can be operated using the convenient Touch Display. Four favourite settings can be stored in the Touch Display and called up at any time.

Microjet with air mixture in **VIVO VARIO PLUS**.

Rotating side jet with air mixture in **VIVO VARIO PLUS**.

Floor jet with air and **KALDEWEI champagne effect** in **VIVO VARIO PLUS**.

VIVO AQUA System regulates also the spectral light and an automatic disinfection system.

In the **VIVO VARIO ECO**, the whirling intensity of the side and floor jets can be smoothly adjusted.

In the **VIVO VARIO PLUS**, all whirl functions can be easily finger-controlled.

KALDEWEI EXPERIENCE / SOUND WAVE

THE BATH AUDIO SYSTEM

With the new SOUND WAVE, KALDEWEI offers an innovative bathroom audio system. The SOUND WAVE components, including the Bluetooth® receiver, are concealed in the bath. This acts as an excellent sound box and provides pleasant acoustics of the highest quality. SOUND WAVE can wirelessly play audio files from your smartphone, computer, tablet or any other Bluetooth®

enabled device. Experience the extraordinary sound under water and escape from everyday life.

Bluetooth® radio technology enables wireless connections to compatible devices. Bluetooth® does not require line of sight between the SOUND WAVE and the other device.

RELAX LOUNGER

The KALDEWEI relax lounge instantly turns a designer bathtub into a small wellness oasis. Relaxing on the fine fabric, you'll feel as if you're lying on the deck of an elegant yacht. In addition to its design qualities, the relax lounge offers a high level of flexibility. It consists of six elements, two of which are permanently connected to each other making it possible to use the relax lounge as three separate boards with varying applications: as a shelf while lying in the bathtub, or as a mattress to recline on. If the three separate boards rest on the bath-

tub together, they can be connected to create a large stable slip-resistant surface that sits firmly on the bathtub. Another connection between the relax lounge and bathtub can be made by attaching fastening buttons. In this way, bathtubs already installed can be retrofitted with the relax lounge. The weight capacity of the relax lounge is 130 kg and is supplied with a special cushion. Cushion size: 40 x 23 x 9 cm.

Relax lounge, sizes: 170 x 75 cm, 180 x 80 cm, 190 x 90 cm, 200 x 100 cm.

RACK to store the relax lounge and cushion.

The relax lounge is available in the following colours:

Anthracite

Beige

Crimson

Chocolate

MULTIFUNCTIONAL CUSHION

What could be nicer after an exhausting day than to lie back, switch off and simply let all your cares drift away? With KALDEWEI's multifunctional cushion, this relaxing pleasure becomes reality. The cushions can be used in three ways. Positioned as a footrest or under the thighs, they prevent the body from sliding downwards in larger baths. Positioned as a neck rest they provide a comfortable support for your head and neck. Placed on the sides they act as an armrest.

BATHTUB CUSHION

The KALDEWEI bathtub cushion brings another level of comfort to the bathtub. Its flexibility and soft materials adapt perfectly to any shape of neck and bathtub. Its volume can be regulated with an air valve – similar to an air mattress. The skin-friendly fabric cover feels delightfully soft and is machine washable. A generous 50 x 30cm, the cushion also supports the shoulder area and allows a variety of head positions.

KALDEWEI PERFECTION / COLOUR & STYLE

YOUR INDIVIDUALITY – STILL THE HIGHEST FORM OF LUXURY.

In an exceptionally aesthetic way, this collection of matt colours emphasises the special character of selected products and sets new standards in the areas of sensuality and value. So in keeping with the current trends in tiling, a selection of our showers

is also available in the shades of the COORDINATED COLOURS COLLECTION shown below. Alpine white matt, seashell cream matt, prairie beige matt, pearl grey matt, oyster grey matt, city-anthracite matt and lava black matt are also available for selected bathtubs.

DECORATIVE AND CREATIVE ACCENTS IN THE BATHROOM

When design and material leave nothing to be desired, the only desire left may be for even more individuality. The KALDEWEI range therefore includes delicate ornamental patterns that are guaranteed to add a personal touch to any bathroom. "Lily" is a subtle floral pattern that is available for selected KALDEWEI bathtubs and floor-level shower surfaces. The organic design of the

decoration makes enamelled shower surfaces with KALDEWEI lily pattern the perfect match for bathrooms with natural floors of wood or stone. And for an extra hint of glamour, the exclusive 24-carat pure gold ornamentation upgrades an alpine white shower surface into an individual designer shower. The ornamentation can even be customised on request.

The discreet lily pattern brings a hint of the exotic to every bathroom.

CONOFLAT (Model No. 786)
with gold ornamentation.

SUPERPLAN (Model No. 407)
with "lily" decoration.

SURFACE – EASY-CLEAN FINISH

With the optional easy-clean finish from KALDEWEI, water simply runs off the bathtub or shower tray, taking almost all dirt and lime particles with it. Even dried-on watermarks and limescale residue can be removed easily. And because stringent cleaners are not needed – just a soft, damp cloth, the easy-clean finish has a positive effect on the environment, too. The easy-clean

finish is a surface finish that is permanently burnt onto the KALDEWEI steel enamel. It ensures unparalleled durability and long life. Even when the surface is wiped 1-2 times a day, the anti-stick properties remain unchanged 30 years later. The easy-clean finish is available for all KALDEWEI bathtubs and shower trays and comes as standard with whirlpool bathtubs.

KALDEWEI SECURE PLUS – ALMOST INVISIBLE

KALDEWEI steel enamel is at the core of the KALDEWEI brand. As a pioneer in the industry, KALDEWEI is continually enhancing this material. Above all, the focus is on anti-slip surface finishings. In a creative environment that responds to users' needs, KALDEWEI has opened a new chapter in surface finishing through the creation of the new KALDEWEI SECURE PLUS surface. The KALDEWEI SECURE PLUS enamel which covers the entire surface of the product, is virtually invisible, but

slip-resistant nonetheless. The German technical inspection association TÜV Rhineland has certified KALDEWEI's SECURE PLUS as having anti-slip properties compliant with quality class B for wet barefoot areas (DIN 51097) and quality class R10 for anti-slip characteristics in work spaces and working areas with an increased slip risk (DIN 51130). The surface itself has a subtle feel to it and comes in the refined look of the COORDINATED COLOURS COLLECTION.

SECURE⁺

SUPERPLAN PLUS with KALDEWEI SECURE PLUS.

PERFECT LOOK – ANTI AND FULL ANTI-SLIP

The anti-slip and full anti-slip enamel surfaces designed by KALDEWEI in its own laboratories are hardly visible and provide more safety when showering or taking a bath. They consist of a mixture which is permanently burnt into the KALDEWEI steel enamel. Due to a flatter matrix of the anti-slip nodules, the new (full) anti-slip system is even more friendly to your skin whilst incorporating the same anti-slip characteristics. It is also impressive with its excellent care properties.

Those who opt for KALDEWEI bathtubs and shower trays place great emphasis on aesthetics and design. The anti-slip and full anti-slip enamel surfaces are perfectly matched to the shape of the bathtubs and shower trays. Thanks to the recipe, optimal colour matching is achieved for the perfect look.

It is a matter of course for KALDEWEI to have the new anti-slip and full anti-slip enamel surfaces comprehensively and objectively tested to ensure greater safety in the bathroom for our customers.

The Rhineland TÜV organisation (German Technical Inspection Association) has certified KALDEWEI's anti-slip and full anti-slip systems as having anti-slip properties compliant with Quality Class B for barefoot wet areas (DIN 51097) and Quality Class R10 for anti-slip characteristics in work spaces and working areas with an increased slip risk (DIN 51130).

SUPERPLAN PLUS with full anti-slip enamel.

**KALDEWEI PROFESSIONAL /
COMFORT SELECT SYSTEM**

MORE COMFORT – MORE FREEDOM

The easy-to-use electronic COMFORT SELECT panel controls the main functions of a bath. The extremely flat chrome-look design fits into the edge of the bath and thus supports the harmonious overall appearance. The innovative Piezo technology allows the following functions to be operated: Temperature display and adjust-

ment in increments of 0,5 degree Celsius, toggling between bath and shower (when the bath programme is selected, the outflow is closed automatically), activation of the outflow. All components of this system solution are made by KALDEWEI.

The innovative Piezo technology allows the following functions to be operated by gently touching the symbols:

— Temperature indication

Precise control of the inflowing water temperature via the stylish display. Precise control of the inflowing water temperature in increments of 0,5 degrees Celsius.

— Simple toggling between the bath and shower functions.

When the bath programme is selected, the waste is closed automatically.

— The waste can also be activated independently of the programme via KALDEWEI COMFORT SELECT at any time.

— All components of this system solution are made by KALDEWEI.

KALDEWEI PROFESSIONAL / WATER INLET AND WASTE SYSTEM

COMFORT-LEVEL AND COMFORT-LEVEL PLUS

Enjoying a relaxing bath depends not only on how comfortably you can recline, but also how deeply you can submerge your body in the water. With the COMFORT-LEVEL and COMFORT-LEVEL PLUS with integrated filling

function, the water depth can be increased by up to 50mm while bathing to suit personal preferences. All it takes is one turn of the lever for maximum bathing pleasure.

for COMFORT-LEVEL

VARIABLE OVERFLOW

To provide the highest degree of pleasure and relaxation, with the COMFORT LEVEL and COMFORT LEVEL PLUS, the bather's immersion depth can be infinitely increased by up to 50 mm – by simply turning the discreet lever.

FILL FUNCTION

In its new, astonishingly flat design too, only COMFORT LEVEL PLUS offers the combination of variable overflow, waste and fill. The fill function is invisibly integrated into the overflow, and the bathtub is filled very quietly.

WATERFALL BATHTUB INLET WITH AND WITHOUT OVERFLOW FUNCTION

Something for those who love bathing – the waterfall bathtub inlet by KALDEWEI offers a completely new kind of bathing experience. The inlet, which was designed by Phoenix Design, is integrated harmoniously in the side of the bathtub. Activating the water fill automatically opens the screen, and an even waterfall pours into the bathtub. The waterfall inlet with additional overflow function creates a quiet, pleasant atmosphere in the bathroom – with

no irritating elements at all on the inside of the bathtub. The contemporary “click-clack” system is a modern waste concept i.e. the water waste on the bottom of the bathtub opens and closes at a gentle touch of the valve ball. A wonderfully elegant solution that meets highest design standards and appeals in form and function. The combination waterfall inlet and “click-clack” is unique.

KALDEWEI PROFESSIONAL / DESIGN GRIPS

SAFELY IN, SAFELY OUT

If you wish to combine aesthetics with a high level of safety, you can have your bath fitted with a KALDEWEI grip. With the many different grip combinations available for your KALDEWEI bath, you're sure to find just the right one to fit your specific requirement.

The KALDEWEI Pool grip makes getting in and out of the bath more comfortable and safer than ever before. The high design ensures a firm hold without having to bend down to the edge of the bath.

MADE IN GERMANY. FITTED ACROSS THE WORLD.

KALDEWEI design products appeal where superior quality is valued. Small wonder then that you will find our products in excellent grand hotels, upmarket private residences and even exclusive cruise ship suites – anywhere around the globe. As a worldwide partner, we meet even the most ambitious requests of the world's leading architects and clients. From the planning to the finished project: bathroom solutions from KALDEWEI appeal with innovative ideas and exquisite designs.

But that's not all: because of its superior properties KALDEWEI steel enamel scores equally at global level – especially in places such as care facilities. The reason being, our unique material guarantees absolute hygiene. Even the smallest dirt particles are easily wiped away with just a damp cloth. We set the bar high with standards based primarily on one aspect: our customers and their ideas – wherever they are in the world.
